It's a bit like seeing a concert in the woods, and rivals the Hollywood Bowl in terms of L.A.'s most magical outdoor music venue. The only downside: The "stacked" parking means getting out of the parking lot often takes longer than the show, and VIP "Quick Parking" is a pricey \$75. Copy WORD SEARCH: Ancient Greek Theatre Vocabulary Extended embed settings Greek Theater (Worksheet reprinted with permission from Mark Twain Media, Inc.) Greek theater began over 2,500 years ago. It began in the religious festivals that honored Dionysus, the Greek god of wine and the harvest. The festivals grew in popularity and importance until, at its peak, the great theater festival in Athens lasted six days. Over 15,000 people attended the festival each year. The earliest plays were stories told by a chorus of men and boys. According to legend, one day a man named Thespis stepped out of the chorus and spoke alone. The chorus then responded to his speeches. Thespis was the first actor. Today we call actors Thespians in his honor. Later, the number of actors increased to three in addition to the chorus. Each actor in the Greek theater played more than one role. To portray different roles, the actor wore different masks. The masks of comedy and tragedy have become symbols of the theater. Greek authors entered their plays in contests for the festival. The winning playwright won a prize of money and an ivy wreath to wear as a symbol of victory. Greek theater had many important playwrights. Aeschylus, Sophocles, and Euripides wrote tragedies (drama in which the main character suffers a disastrous end). Aristophanes and Menander wrote comedies (light, humorous dramas with a happy ending). A special type of play called the satyr play made fun of the Greek legends. We get our word satire from this. Some of the most famous Greek plays were Oedipus, Antigone, Electra, Medea, The Birds, and The Frogs. The great Greek philosopher and teacher, Aristotle, wrote The Poetics. In this book he discussed the theater of his time. Aristotle discussed important topics of the theater including plot (what happens), theme (the idea or message), character, music, diction (speech), and spectacle (what was seen). Aristotle became the first literary critic. The Greeks built their theaters on hillsides. They used the natural slope of the hill for seating the audience. A large circular area called the orchestra was located at the foot of the hill. It was here that the members of the chorus moved as they chanted their lines. Behind the orchestra was a raised platform on which the actors performed. A small building named the skene was built in the back of the acting platform. The skene was where the actors changed masks. The Greeks used the front wall of the skene to represent the location of the play. Our word scene comes from skene. The Greek theater also had special machinery including platforms on wheels and a device to lower an actor from the top of the skene house onto the stage. They used this device to show a god coming down to earth. The Greeks also used scenery to help give locations for the action of the play. Most historians agree that the Greek era is one of the most important times in theater history. Questions for Consideration (Answer in complete sentences) 1.
